

DecontextualizedContent

A Schema.org Enumeration Member

This term is in the "new" area - implementation feedback and adoption from applications and websites can help improve our definitions.

Thing > Intangible > Enumeration > MediaManipulationRatingEnumeration :: DecontextualizedContent

[\[more...\]](#)

Content coded 'missing context' in a **MediaReview**, considered in the context of how it was published or shared.

For a **VideoObject** to be 'missing context': Presenting unaltered video in an inaccurate manner that misrepresents the footage. For example, using incorrect dates or locations, altering the transcript or sharing brief clips from a longer video to mislead viewers. (A video rated 'original' can also be missing context.)

For an **ImageObject** to be 'missing context': Presenting unaltered images in an inaccurate manner to misrepresent the image and mislead the viewer. For example, a common tactic is using an unaltered image but saying it came from a different time or place. (An image rated 'original' can also be missing context.)

For an **ImageObject** with embedded text to be 'missing context': An unaltered image presented in an inaccurate manner to misrepresent the image and mislead the viewer. For example, a common tactic is using an unaltered image but saying it came from a different time or place. (An 'original' image with inaccurate text would generally fall in this category.)

For an **AudioObject** to be 'missing context': Unaltered audio presented in an inaccurate manner that misrepresents it. For

example, using incorrect dates or locations, or sharing brief clips from a longer recording to mislead viewers. (Audio rated “original” can also be missing context.)

A member value for enumeration type: **MediaManipulationRatingEnumeration**
