

Duration

A Schema.org Type

[Thing](#) › [Intangible](#) › [Quantity](#) › **Duration**

[\[more...\]](#)

Quantity: Duration (use [ISO 8601 duration format](#)).

Property	Expected Type	Description
Properties from Thing		
additionalType	Text or URL	An additional type for the item, typically used for adding more specific types from external vocabularies in microdata syntax. This is a relationship between something and a class that the thing is in. Typically the value is a URI-identified RDF class, and in this case corresponds to the use of <code>rdf:type</code> in RDF. Text values can be used sparingly, for cases where useful information can be added without their being an appropriate schema to reference. In the case of text values, the class label should follow the schema.org style guide .
alternateName	Text	An alias for the item.
description	Text or TextObject	A description of the item.

Property	Expected Type	Description
disambiguatingDescription	Text	A sub property of description. A short description of the item used to disambiguate from other, similar items. Information from other properties (in particular, name) may be necessary for the description to be useful for disambiguation.
identifier	PropertyValue or Text or URL	The identifier property represents any kind of identifier for any kind of Thing , such as ISBNs, GTIN codes, UUIDs etc. Schema.org provides dedicated properties for representing many of these, either as textual strings or as URL (URI) links. See background notes for more details.
image	ImageObject or URL	An image of the item. This can be a URL or a fully described ImageObject .
mainEntityOfPage	CreativeWork or URL	Indicates a page (or other CreativeWork) for which this thing is the main entity being described. See background notes for details. Inverse property: mainEntity
name	Text	The name of the item.
potentialAction	Action	Indicates a potential Action, which describes an idealized action in which this thing would play an 'object' role.
sameAs	URL	URL of a reference Web page that unambiguously indicates the item's identity. E.g. the URL of the item's Wikipedia page, Wikidata entry, or official website.
subjectOf	CreativeWork or Event	A CreativeWork or Event about this Thing. Inverse property: about
url	URL	URL of the item.

Instances of **Duration** may appear as a value for the following properties

Property	On Types	Description
activityDuration	ExercisePlan	Length of time to engage in the activity.
billingDuration	UnitPriceSpecification	Specifies for how long this price (or price component) will be billed. Can be used, for example, to model the contractual duration of a subscription or payment plan. Type can be either a Duration or a Number (in which case the unit of measurement, for example month, is specified by the unitCode property).
billingPeriod	Invoice	The time interval used to compute the invoice.
cookTime	Recipe	The time it takes to actually cook the dish, in ISO 8601 duration format .
duration	Audiobook or Episode or Event or MediaObject or Movie or MusicRecording or MusicRelease or QuantitativeValueDistribution or Schedule	The duration of the item (movie, audio recording, event, etc.) in ISO 8601 duration format .
estimatedFlightDuration	Flight	The estimated time the flight will take.

Property	On Types	Description
gracePeriod	LoanOrCredit	The period of time after any due date that the borrower has to fulfil its obligations before a default (failure to pay) is deemed to have occurred.
leaseLength	Accommodation or Offer or RealEstateListing	Length of the lease for some Accommodation , either particular to some Offer or in some cases intrinsic to the property.
performTime	HowTo or HowToDirection	The length of time it takes to perform instructions or a direction (not including time to prepare the supplies), in ISO 8601 duration format .
prepTime	HowTo or HowToDirection	The length of time it takes to prepare the items to be used in instructions or a direction, in ISO 8601 duration format .
processingTime	ServiceChannel	Estimated processing time for the service using this channel.
repeatFrequency	Schedule	Defines the frequency at which Events will occur according to a schedule Schedule . The intervals between events should be defined as a Duration of time.
termDuration	EducationalOccupationalProgram	The amount of time in a term as defined by the institution. A term is a length of time where students take one or more classes. Semesters and quarters are common units for term.
timeRequired	CreativeWork	Approximate or typical time it usually takes to work with or through the content of this work for the typical or target audience.

Property	On Types	Description
timeToComplete	EducationalOccupationalProgram	The expected length of time to complete the program if attending full-time.
totalTime	HowTo or HowToDirection	The total time required to perform instructions or a direction (including time to prepare the supplies), in ISO 8601 duration format .
validFor	EducationalOccupationalCredential or Permit	The duration of validity of a permit or similar thing.
