

PublicHolidays

A Schema.org Enumeration Member

Thing > **Intangible** > **Enumeration** > **DayOfWeek** :: **PublicHolidays**

[\[more...\]](#)

This stands for any day that is a public holiday; it is a placeholder for all official public holidays in some particular location. While not technically a "day of the week", it can be used with **OpeningHoursSpecification**. In the context of an opening hours specification it can be used to indicate opening hours on public holidays, overriding general opening hours for the day of the week on which a public holiday occurs.

A member value for enumeration type: **DayOfWeek**

Acknowledgements

GoodRelations Vocabulary Classes

This class is derived from the GoodRelations Vocabulary for E-Commerce, created by Martin Hepp. GoodRelations is a data model for sharing e-commerce data on the Web that can be expressed in a variety of syntaxes, including RDFa and HTML5 Microdata. More information about GoodRelations can be found at <http://purl.org/goodrelations/>.
